

ASINI JAYAWEERA

IT Undergraduate | Full-Stack Developer

Nittambuwa, Sri Lanka | +94 76 305 0246 | asinijayaweera03@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Third-year BSc (Hons) IT undergraduate at SLIIT with hands-on experience building full-stack web and mobile applications using the MERN stack, React Native, and JWT authentication, with containerization experience via Docker. Has shipped three independently deployed applications integrating AI APIs, REST architecture, and cloud deployment (Vercel, Railway). A fast learner with strong problem-solving skills, comfortable working independently or within Agile teams, currently expanding into TypeScript, PostgreSQL, and cloud infrastructure.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python

Web Development: HTML, CSS, MERN Stack (MongoDB, Express, React, Node.js), Vite, JWT Authentication, REST APIs

Mobile Development: React Native

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Docker, IntelliJ IDEA, VS Code, Postman, Figma, Jira

Concepts: Object-Oriented Programming, Data Structures (Stack, Merge Sort), RESTful Architecture, Agile Methodology

PROJECTS

Focusly — Full-Stack Note-Taking Application

2025

Technologies: MongoDB, Express, React, Node.js, Docker, JWT

- Built a full-stack note-taking app using the MERN stack with JWT authentication and REST APIs.
- Containerized the application with Docker, resolving Dockerfile, SSL, and CMD configuration issues.
- Collaborated on Agile-based project planning, task management, and sprint tracking using Jira and GitHub Projects.
- Contributed to UI/UX planning, requirement analysis, and team coordination.

[GitHub](#)

notifiU — MERN Stack Learning Management System

2025 - Present

Technologies: MongoDB, Express, React, Node.js, React Native

- Contributing to a full-stack LMS web and mobile application, including a career management feature.
- Building mobile interface components using React Native alongside the web client.
- Working within real-world application architecture across frontend, backend, and mobile layers.

What Should I Cook? — AI Recipe Matcher Web App

2026

Technologies: React, Vite, Vercel Serverless Functions, Gemini API

- Built and deployed a web app that ranks 8–10 recipe suggestions by fewest missing ingredients based on user-entered leftovers.
- Integrated the Gemini API (gemini-2.0-flash) via Vercel serverless functions for AI-generated recipe matching.
- Implemented a localStorage-based favorites system and shipped the app live on Vercel.

[GitHub](#)

Inventory Management System

2024

Technologies: Java, JSP, Servlets

- Developed a full CRUD system to manage stock items with custom backend logic.
- Implemented a custom Stack data structure and applied Merge Sort for data organization.
- Designed backend logic and handled database integration.

EDUCATION

BSc (Hons) Information Technology

Sri Lanka Institute of Information Technology (SLIIT), Sri Lanka

2024 - Present

G.C.E. Advanced Level — Biology Stream

Dharmapala Vidyalyaya, Pannipitiya

2019 - 2022

G.C.E. Ordinary Level

Girls' High School, Mt. Lavinia

2019

CERTIFICATIONS

- Advanced Certificate in English — NIBM
- AI/ML Engineer Stage 1 — SLIIT — [verify](#)
- Web Design for Beginners — University of Moratuwa — [verify](#)
- Project Management Foundations — LinkedIn Learning — [verify](#)
- Docker Fundamentals for Modern Application Delivery — Coursera — [verify](#)

SOFT SKILLS

- Strong problem-solving ability
- Good communication skills
- Teamwork and collaboration
- Time management and adaptability
- Fast learner
